I am a result-oriented, goal-driven proactive and reliable mechanical engineer who has tremendous passion for coding with basic knowledge of python programming language from my stint as a data science-in-training at Udemy, Cisco Networking Academy, and Codecademy and also on MS PowerBI and MS Excel.

My aim is to join a team of bright minds that desire to solve problems in this generation and also provide lasting solutions leading to a better future for ourselves and the environment. To utilize my quality skills for the provision of an unparalleled service to a reputable organization with career growth potential. Also, to get an entry level position in an establishment requiring expertise in handling customers and in generating profits for the organization and also acquiring new skills for goals and objectives accomplishment both short- and long-term visions.

## SKILLS

Skill Set	Software	Proficiency
2D and 3D Modelling of mechanical components	AutoCAD	80%
Data preparations, Data visualizing, Data Modelling, DAX	Power BI	80%
Drafting and designing of PMDS systems	PDMS	50%
Data analyses, Building Formulas, Cell Formatting, managing large datasheet with function: IF, SUM, Building charts and graphs	Excel	70%
Conceptualized and designed presentations, Visual aids (charts and graphs)	Power Point	70%
Coding	Python	50%
Engineering Design and analyses		
Numerical analyses		
Procurement and supply chain		
Communication Skills/Problem Solving Skills		
Flexibility/Adaptability		
Leadership Skills		
Work Ethic/Interpersonal		

## EDUCATION

- University of Nigeria, B.Eng. (Mechanical Engineering)** **2013-2018**  
(Second Class Honours-Upper Division, CGPA 4.16/5.00)

## EXPERIENCES

**Future Concerns Nigeria Limited** **10/2018 – Till Date**  
Graduate Trainee (Tactical and Technical Support Specialist)

### Achievements:

- Ensured collaboration and team working with my line manager and other team member towards ensuring the success of the following projects which were compiled, submitted and executed by my team (for the awarded ones)-
  - NLNG Bill Board Project (Tender compilation, submission and project execution)
  - NLNG Emergency Fire and Safety Services Project (Tender Compilation and Submission)
  - Shell Emergency Response (Tender Compilation and Submission)
  - Chevron Emergency Response (Tender Compilation and Submission)
  - Total Egina Project (Tender compilation, submission and execution)
- I worked with the Shell 2019/2020 PPE tender team to ensure accurate compilation and submission of tender. All required documentations were provided and I was in the team that worked throughout the submission weekend and also was part of the submission at NipeX office.
- I adequately ensured that all tender opportunities published on the dailies (Newspapers) were thoroughly checked and presented to my line manager and tender review team for action. I never missed out any tender opportunity published on any pf the dailies.
- I ensured close collaboration with the Brady team (Safety facility identification) in closing out all opportunities as received.

**Achievements**

- Participated in the servicing of all types of vehicles
- Managed the Financial records of the sales done each day.
- Assisted in the procurement of vehicle spare parts.
- Provided telephone technical support to customers.
- Participated in interpreting and analyzing results and data gotten from vehicle diagnostic.
- Assisted in providing technical support to the craftsmen

**TRAINING**

---

- Health, Safety and Environment (Level 1-3), Pan African Institute (2019)
- Project Management Professional, Pan African Institute (2019)
- Human Resource Management, Pan African Institute (2019)

**VOLUNTARY SERVICES**

---

- Team Leader, Utility and Maintenance team, NYSC Camp, Lagos. (2019)
- Member, Information and Communication Technology (ICT), Community Development Service group (CDS) (2019)
- Community Development Scheme (CDS) movement to excite market traders on the negative impacts of sexual harassment and rape. (2019)
- Fellowship Hall Pastor, Methodist Campus Fellowship 2016)
- Organizing Secretary, Methodist Campus Fellowship (2015)
- Member, Organizing Committee for Mechanical Engineering 2016 Alumni Homecoming. (2016)

**ONLINE COURSES**

---

- Energy Transition: Innovation towards a low-carbon future by IFP schools and Total Foundation (2020).
- Tomorrow's Mobility: Innovation towards a low-carbon future by IFP schools and Total Foundation (2020).
- Project Management Essentials, Management and Strategy Institute (MSI) (2020)
- Confined Space Entry, NEXA (2020)
- Safety and Health at work, NEXA (2020)
- Fire Safety Management, NEXA (2020)
- Introduction to drilling, IWCF (2020)
- Electric Vehicles: Plugging into Smarter Energy Management, Schneider Electric (2020)
- Alternative Power Generation Technologies, Schneider Electric (2020)
- Battery Safety and Environmental Concerns, Schneider Electric (2020)
- Soft Skills, Jobberman (2020)
- Foundational Solar Photovoltaic Online Course, Energy Talent Company (2020)

**PROFESSIONAL AFFILIATION**

---

- Nigeria Society of Engineers (NSE), Student Member
- International Association of Engineers (IAENG)
- Nigerian University Engineering Association (NUESA), Student Member

**LANGUAGE**

---

- English Language (Proficient)
- Igbo (Proficient)
